I.vi.MMIX

David Cunningham of Truska designed my website having worked through the material with me. I was delighted with the result, and many people have commented on how useful and comprehensive is the finished job. In particular, the links between sections have been well thought-out, and a considerable amount of information is included. I would recommend Truska to any professional: Mr Cunningham is extremely helpful and efficient, and comes up with good ideas and layouts. I have been thoroughly satisfied with Truska's work in every respect.
