To Whom it may Concern;

I have used TS office supplies on a couple of occasions and have found their services second to none in terms of efficiency and cost effectiveness.

On both occasions I required items as soon as possible and Tom was able to deliver them the very next day at a price I was happy to pay.

The last time I used their services was a few weeks ago when I needed some cartridges for my printer. I went to the place I usually get them only to be told that they no longer supplied them. One quick call to Tom and he had them for me the next day.

I would like to thank TS Office supplies for their service and I would have no hesitancy recommending them to anyone.

Regards
