To

Lisa Barwise Viva Systems

I recently attended the Viva Systems 'Vision Day' at the Wellington Park hotel focusing on profitability, productivity and delivery for my business. An excellent day. Insightful, varied, thought-provoking and highly useful. A great balance of informal chat, interaction and professional presentation.

Lisa is a skilled presenter and brings an unusual mix to the coaching arena due to her own background, training and experience. I benefited enormously from the day. As further testament several of the group were Lisa's current clients and it was clear the respect they held for her personally and the Viva process. More importantly was the strong sense of how involved she was with their businesses and the sense of ownership she brought to the challenge of helping them achieve their vision.
