TO WHOM IT MAY CONCERN

I have used Clarity Telecom with respect to their additional services that they provide and have nothing but praise for the manner that the enquiry was handled with and ultimately delivered.

In this day and age , where service is of paramount importance , Trevor Reid handled the initial enquiry and followed it right through in terms of providing regular updates which is unheard of in the twenty first century .

In practice ,the service that I requested was instigated within hours which is a real credit to Trevor .

I therefore have no reservations in recommending Clarity Telecom and am open to be contacted should the need arise .

Yours sincerely .

Al chada
